Book your session

A few times a year I offer these Super Mini Portrait sessions. They are usually at an indoor location of my choice with a plain black backdrop, and many families are invited to come and have a really short session with me. Sessions are short and sweet: 10 minutes to take three set poses, and another 10 minutes for your on the spot ordering appointment.

The three poses generally include: the family, the parent(s) and the kid(s). Or perhaps: the couple, and a portrait of each individual. There may be different variations depending on your circumstance, but please discuss this with Sarah.

It's important to note that these sessions are REALLY short and sweet, and so are not suitable for extended families, or families seeking a variety of shots or more than the set three poses.

Please contact Sarah at sarah@sjcreative.com.au or 0447 733 450 during standard business office hours to book your session and pay your sitting fee.

Retouching

How far do you like photos of yourself to be retouched? For most people it's level 1 or 2, sometimes a bit of this or that. Retouching is a separate item so that you can tell us how far you want to go.

Some level 1 retouching is already included in all Wall Art and Albums (and subsequent prints of the same image).

Retouching Levels

Price/image

1: Removal of facial glare, stray hairs, remove or soften skin blemishes, spots in background, teeth whitening, soften bags under eyes, adjust lighting	\$5

3: Level 1 and 2 plus add or remove people, remove buildings cars etc, take off 10 yeas / 5kg	\$20
